# THE COM -PANY

As Sm chair, we offer our customers an experience beyond their dreams by taking innovation, aesthetics and comfort as our guide and combining the passion for ergonomic design, sustainable production and functional furniture with the latest technologies of the age.

In our company, which has been famous for its agility in production in Adana since 2009, we adopt an innovative production style that aims to expand the product horizon day by day by diversifying a wide range of stock and project-oriented original designs.

As Sm Chair, which has been making our customers' dreams come true since the day we were founded, we transform hotels, restaurants, cafes, houses and gardens into eye-catching places with our attention to the project process and details. We approach the projects of chain and bou-

tique brands with creative, modern and technological designs, and offer movable products in accordance with special concepts to our customers without compromising on furniture quality.

By combining passionate designs that appeal to different tastes with a wide variety of fabric and leather options, we aim to introduce even our most demanding customers to spaces beyond their expectations.

We always aim for universal standards in design and production, transform unique, timeless and elegant designs into high quality durable products and export them to the whole world.
